

BÉNIN DIGITAL HUB

Solutions catalogue

Health, education, commerce and digital infrastructure:
platforms designed in Benin, for Benin and francophone
Africa.

A Beninese digital transformation company

Bénin Digital Hub SARL designs, builds and deploys digital platforms for health, education and commerce. Founded on 21 July 2026, the company is based in Benin.

HealthTech

Digital patient records, disease prevention and surveillance, mapping of hospital capacities.

EdTech

A national higher-education platform, a smart board for the classroom, an educational game.

Digital infrastructure

Marketplaces, shared artificial intelligence and data security across all our platforms.

HOW WE WORK

One team, from design to deployment. Mockups, development, launch and follow-up are handled in one place.

Built for the phone. Our web platforms install on the phone and can be paid by Mobile Money where the service provides for it.

Security by design. Role-based access, audit logs and encrypted backups protect the data.

 EB

FOUNDER

Eboun Benjamin EWEDJE*Founder and Chief Executive Officer*

Trained in the life sciences, a self-taught full-stack developer. He designs and builds all of the group's platforms himself.

SantéBénin

PILOT

The inter-hospital health platform: a digital patient record shared between departments and facilities, from first reception to hospital stay.

CLINICAL MODULES

Reception	Consultation	Laboratory	Imaging
Pharmacy	Inpatient care	Management	Dashboards

WHAT IT BRINGS

A single patient record, visible to the right departments. A patient card with QR code and barcode. Patient photos stored privately. An audit log of every action.

ACCESS

Platform: app.santebenin.com
 Partner demo: demo.santebenin.com, with fictitious data only.

IN THE SAME FAMILY

Karesys

WHITE LABEL

SantéBénin's clinical system, generalised so that it can be taken up under another brand and used in several countries.

MamaCare

PHASE 1 DEPLOYED

Mother and child health follow-up, with access to SantéBénin's directory of doctors.

VIGIE

LIVE

A national real-time map of hospital capacities: free beds, oxygen, blood, operating theatre, to guide transfers.

MNT-BÉNIN programme

Prevention, screening and surveillance of non-communicable diseases in Benin. Each disease has its own platform, linked to a single national portal.

REIN-BÉNIN

LIVE

Prevention, screening and surveillance of kidney disease. A stand-alone platform that can draw on SantéBénin data.

rein.santebenin.com

DIAB-BÉNIN

ROLLING OUT

Prevention, screening and surveillance of diabetes, built on the same model as REIN-BÉNIN.

diab.santebenin.com

MNT-BÉNIN national portal

LIVE

One national account for all programmes, present and future. Data stays within each programme; only anonymous aggregates reach the portal.

santebenin.com/mnt

One platform per disease

Care pathways adapted to each condition, without mixing data.

National steering

A single administration area to create and manage accounts.

Extensible

New programmes plug into the same portal.

Learn, teach, present

Digital tools for the university, the classroom and pupils, designed for the Beninese context.

UniBénin

IN DEVELOPMENT

The national higher-education platform: universities, faculties, departments, programmes, students, teachers and online admissions. Dashboards for every level: national, university, department, teacher and student.

BDH Tableau

LIVE

The smart board for teachers and speakers: what you draw or manipulate on your tablet appears live on any projector, television or digital screen.

Mathematics**Physics****Chemistry****Biology**

For pupils from 3ème to Terminale. Built-in calculation formulas for the four subjects, a library of saved lessons and PDF export. Access is reserved to authorised accounts.

tableau.benindigitalhub.tech

KOKO

IN DESIGN

An educational endless-runner mobile game that introduces the 12 departments of Benin.

Sell, deliver, protect

The platforms that run online commerce, and the shared infrastructure that makes them intelligent and safe.

YéyéMarket

LIVE

The marketplace that brings shops, restaurants, couriers and customers together on one platform.

Dedicated spaces for sellers, restaurants and couriers

Payment by Mobile Money

Live GPS delivery tracking

AI shopping assistant

yeyemarket.com · web app that installs on the phone

MALLOVEX

LIVE

Our online commerce platform.

mallovex.com

ARTIFICIAL INTELLIGENCE

KORA AI

The AI assistant shared by the BDH platforms: one service, reused everywhere. It powers KORA-MENU, among others.

LIVE

CYBERSECURITY

BDH Security

Our internal protection system: monitoring console, daily audit of our platforms and encrypted backups.
